

verslag html deel 3

OPDRACHT 1

Lossy compression = Overbodige informatie word permanent verwijderd na decompressie en is onomkeerbaar

Lossless compression = Elke bit van de gegevens in het oorspronkelijk bestand blijft over na decompressie

Jpeg → lossy compression

Png → lossless

Gif → lossy compression

Als je een afbeelding herhaaldelijk bewerkt in een lossy formaat zal de afbeelding uiteindelijk niet meer duidelijk zijn

OPDRACHT 2

100 vs 40

Bevindingen: de afbeelding word meer “pixelated” na compressie en word zo iets minder duidelijk (kwaliteit verminderd veel)
